## Our Expert Services

### Risk Surveys

Insurance Risk Survey Reports are an essential tool to showcase your property to Insurers. Where risk improvements are identified, you will obtain invaluable recommendations to address your risk exposures.

#### Inclusions

Risk survey report  
Risk improvements report  
Aerial and drone images  
Natural hazards data

### Building Replacement Costs

Building Replacement Cost Reports are crucial for ensuring that adequate insurance coverage is in place in the event of a disaster, by determining the replacement value of your property.

#### Inclusions

Building replacement cost report  
Aerial and drone images  
Complimentary desktop updates\*

### Combine and save 15%

Take advantage of our offer by bundling services within a single site visit - saving money and time.

## Why Choose Us?

### Any Risk Anywhere

Asset Inspect is the preferred service provider for exceptional insurance risk surveys and building replacement costs.

We provide coverage across Australia, including all metro, regional and remote locations.

### In-House Consultants

Our team are all employees. We do not use contractors or sub-contractors.
